

The nation's largest Dental Support Organization (DSO) Heartland Dental awards DIO Implant as Diamond-Trusted supplier

This new dimension of confidence is set to surpass expectations.

COSTA MESA, CALIFORNIA, UNITED STATES, July 14, 2023 /EINPresswire.com/ -- DIO Implant USA, home to the DIONavi digitally-guided [dental implant](#) workflow and continuing education learning center, the DIO Digital Academy is proud to announce they've been recognized as a Diamond Trusted Supplier by Heartland Dental, the nation's largest Dental Support Organization (DSO).

“The DIO Digital Academy (DDA) is an invaluable resource that provides world-class dental implant education and digital training for today's next-generation doctors,” said Vince Wagner, Vice President of DSO Business Development at DIO USA. “We're grateful to have been bestowed Diamond Trusted status with Heartland. They're an extremely respected DSO, and this recognition is quite an honor.”

Founded 1997 in Effingham, Illinois, Heartland Dental has over 1,700 supported offices in 38 states and the District of Columbia. The doctor-led culture and business model make Heartland the nation's best Continuing Education and leadership training facility for doctors. They work with the leading manufacturers and distributors in the dental

industry to ensure that their supported doctors and teams get the best support, services, and pricing on dental supplies, equipment, and lab services.

“A handful of Heartland-supported doctors are already using DIO’s digitally guided dental implant workflow,” said Dr. Ben Hanson, Heartland Dental Implant Clinical Director. “Our goal is to introduce those supported doctors who could benefit from the DIO platform, get trained on the methodology, and start using DIO products.”

The DIONavi system is dramatically different from other implant methods. It’s changed the way the game is played. Through the precise diagnostics of digital imaging and step-by-step surgical workflow, implant placement is flawless, enabling a predictable outcome. Plus, there’s a minimal incision, so there’s minor bleeding and swelling — delivering a quicker patient recovery.

“With over 800,000 successful DIONavi guided implant surgeries performed, the DIONavi system has proven predictability time and time again. There is no other patient-friendly, resilient solution like it in the industry. No other digitally guided workflow even comes close. And we’re excited to educate and train Heartland-supported doctors with our system.” Wagner concluded.

“I am so pleased that the DIO brand continues to gain traction in the United States,” said Kim Jin-Chul, Chairman of DIO Corporation. “This partnership with Heartland Dental strengthens our awareness and reach, increasing our position as a worldwide leader in digital [dentistry](#),” Jin-Chul concluded.

About DIO USA.
