technical indicator charts

With the integration of ChatGPT-4 and internet search, Zoonova users can now benefit from a more comprehensive and in-depth Stock and ETF data analysis. The sophisticated natural

Use ChatGPT 4 with AI/Machine Learning Stock/ETF Data and Internet Search.

Zoonova.com calculates various AI/Machine Learning metrics for Stocks and ETFs, such as:

- Price and alpha forecasts from 1 day – 1-year using XGBoost and other models for predictive analytics
- Alpha probability using a neural network deep learning model
- Stock sentiment analysis using an NLP VADER model that analyzes over 3,000 different news feeds
- Pattern recognition using clustering for 200 different

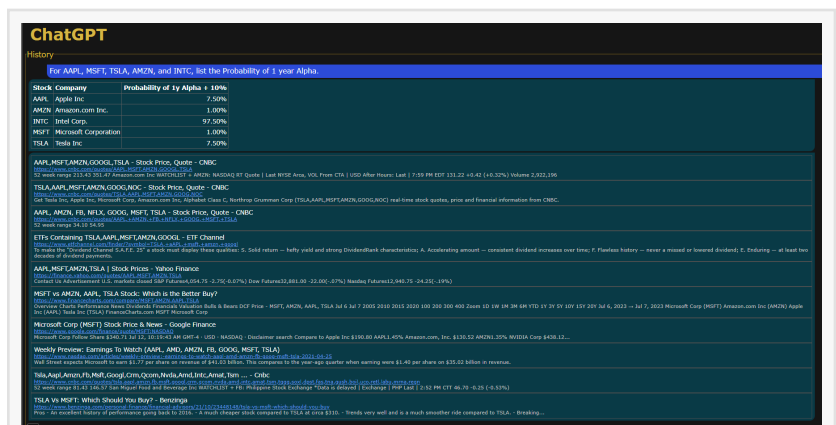

language processing skills of ChatGPT-4 will allow Zoonova to provide a more contextualized and relevant interpretation of Stock and ETF data. In summary, ChatGPT-4 with internet access along with Zoonova.com AI/Machine Learning metrics can help gather and present unbiased information, data crunching, data classification, stock analysis, pattern recognition, predictive analytics, and sentiment analysis.

“We are thrilled to integrate ChatGPT-4 with our AI/Machine Learning data to provide our users with the most comprehensive and reliable stock research tool available for free,” said Blaise F. Labriola, Managing Partner of Zoonova.com. “Our users can now leverage the power of Natural Language Processing, Web Search, and AI/Machine Learning Data to get answers and insights on Stocks and ETFs that are not available anywhere else. This technology represents the cutting-edge of financial analysis and we are proud to be at the forefront of this innovation. As ChatGPT’s capabilities expand, the traditional roles of personal finance management and financial advisors may soon become obsolete.”

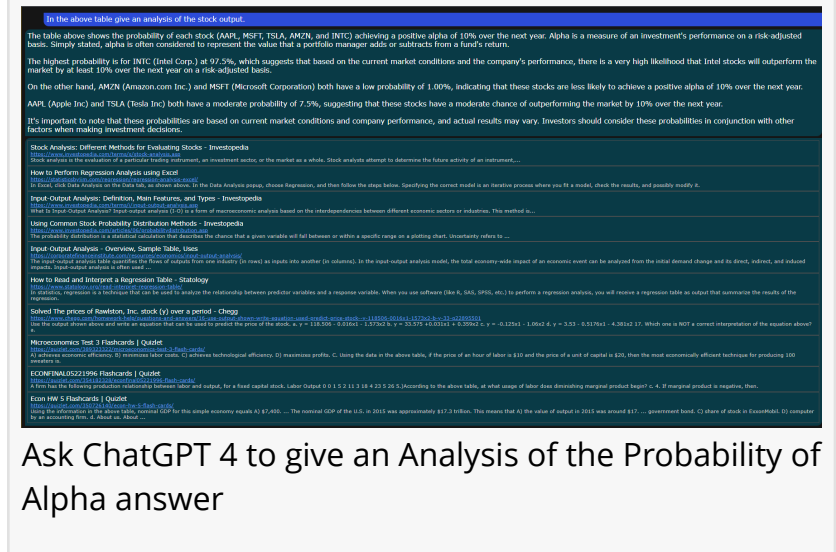

An example of AI questions the user can ask ChatGPT-4 are:

- List the top 10 stocks with the highest predicted 1-year alpha and show the 1-year price prediction.
- What are the 6m price predictions for the top 25 high-sentiment stocks? List the stocks, sentiment, and price predictions.
- Are there any True Candlestick Patterns for MSFT?
