[Cosmetology](https://www.milaninstitute.com/campus/lasvegas) have 13 campus locations in California, Nevada, and Texas, and specialize in providing career training for beauty, healthcare, and massage therapy careers.

Milan Institute - Las Vegas made the move to a new location in order to better accommodate their current body of training programs. The Milan Institute - Las Vegas campus currently offers Administrative Medical Assistant, Cosmetology, Esthetician, Medical Assisting, and Nail Technology training programs. The new campus location will provide more space for the growing student population enrolled in these programs.

[The student salon at Milan Institute - Las Vegas](https://www.milaninstitute.com/campus/lasvegas) will also benefit from the new location. The new campus location provides the student salon with increased visibility and enhanced accessibility to public transportation. Additionally, the new campus is located in a denser population center. All of these factors will contribute to improved practice opportunities for Milan Institute students at the student salon.

Milan Institute - Las Vegas Campus Director, Cody Hernandez, was excited to announce the move. Cody Hernandez said, "Milan Institute - Las Vegas' move to our new, bigger campus will allow students even more space for their career training. The new location provides everything our students need for successful training. We cannot be more excited to expand into this new campus space!"

Classes begin at Milan Institute - Las Vegas' new campus location in mid-July. There will be a formal ribbon-cutting ceremony to celebrate the opening of the new campus location, date still to be determined.
