

Wings of Data: Exploring Aviation Analytics for Efficient Flight Operations

Aviation Analytics Market to Garner \$8.21 Billion by 2030: Allied Market Research

PORTLAND, OREGON, UNITED STATES, July 17, 2023 /EINPresswire.com/ -- As per the report published by Allied Market Research, the global [aviation analytics market](#) was accounted for \$2.78 billion in 2020, and is estimated to reach \$8.21 billion by 2030, growing at a CAGR of 11.72% from 2021 to 2030.

High volume of data generation in the aviation industry and surge in aviation passenger traffic have boosted the growth of the global aviation analytics market. However, dearth of analytically skilled workforce hinders the market growth. On the contrary, technological advancements are expected to open new opportunities for the market players.

Covid-19 scenario:

The Covid-19 pandemic had a negative effect on the aviation analytics market due to implementation of strict lockdown measures and restrictions of international flights. The pandemic led to various challenges including grounding of airplanes and low demand for air travel.

The report divides the global aviation analytics market on the basis of component, end user, business function, application, and region.
