Currently, market value is pegged at USD 11.9 Bn.

The protection offered to exporters and importers to lessen the risk of damage or loss of products during commerce is referred to as import export insurance. It covers damage to the cargo both on land and at sea. Import-export insurance demand is fueled by reasons including rising globalisation and the need for insurance protection to get a credit line from a financial institution. The market is, however, facing difficulties due to the unstable nature of the economy and the high price of insurance. Due to the enormous possibility afforded by providing customised insurance solutions and integrating technology, the market is anticipated to maintain its development trajectory overall.
