The California Moisturizer boasts a lightweight yet intensely nourishing formula designed to replenish the skin's moisture barrier and promote a healthy complexion. It revitalizes and restores the skin's natural radiance, leaving it feeling soft, supple, and rejuvenated.

Complementing the moisturizer, the California Wash is a gentle and pH-balanced cleanser that

effectively removes impurities without stripping the skin of its essential oils. Infused with a captivating scent, this luxurious wash creates a spa-like experience while leaving the skin refreshed and invigorated.

Both the moisturizer and wash embody APPLE & BEARS' commitment to sustainability and ethical practices. The products are vegan, cruelty-free, and free from harmful chemicals such as parabens and other harmful chemicals. Additionally, the packaging is made from recyclable materials, reflecting the brand's dedication to minimizing its environmental impact.

"We are thrilled to introduce the Nourishing Nature's Best range, inspired by the beauty and diversity of California," said Kay Butt, CEO of APPLE & BEARS. "With these products, we aim to provide a luxurious skincare experience while prioritizing the well-being of our customers and the planet. We believe that nature has the power to nurture, and our new range embodies that philosophy."

The Nourishing Nature's Best collection by APPLE & BEARS is now available for purchase through the brand's official website and selected retailers. For more information about the range or to explore APPLE & BEARS' complete product lineup, visit www.appleandbears.com.
