Kristi Elizabeth from [Portland Book Review](#) said "The plot was wonderful as were the characters. Each character showed such intricate feelings and emotions. I also liked the story of an Asian American and a Caucasian American because there don't seem to be that many books with that relationship dynamic. It was clear that Author Kayla Cunningham did a stunning amount of research on all of the topics she addressed in this book. From Asian culture and customs to cancer protocol and the procedures doctors and hospitals take to the scenery of her settings in Colombia and the San Francisco Bay Area, Kayla's attention to detail is outstanding. More than just a romance, Fated to Love You brings to life the struggles of two very realistic characters. I am looking forward to the second book in this series."

If you're in the mood for a captivating and heartfelt romance, "Fated to Love You" is an absolute must-read. It will whisk you away on a roller coaster of emotions, leaving you with a lingering smile and a renewed faith in the remarkable power of love.
