Definition:

Human Capital Management (HCM) is a strategic approach to managing and optimizing the human resources within an organization. It involves various processes and practices aimed at acquiring, developing, managing, and retaining employees to maximize their performance and contribution to the organization's goals. HCM encompasses a wide range of activities and functions related to human resources management. Effective HCM practices aim to align the organization's human capital with its strategic objectives, enhance employee productivity and satisfaction, and drive overall business success. By focusing on acquiring, developing, and retaining top talent, organizations can gain a competitive advantage and achieve sustainable growth.

Revenue and Sales Estimation — Historical Revenue and sales volume are presented and further data is triangulated with top-down and bottom-up approaches to forecast complete market size and to estimate forecast numbers for key regions covered in the report along with classified and well-recognized Types and end-use industry.
