Jakob is an Operations Officer with the IFC-International Finance Corporation and played a key role in bringing the Nominee Directors of the IFC into the Certificate in Risk Governance® program of the DCRO Institute last summer. At the IFC, Jakob is responsible for sourcing, onboarding, and knowledge management for the IFC Nominee Director Support Center, helping to place directors on boards of IFC-backed companies around the globe, currently supporting an equity portfolio of \$12 billion USD. His work is global and has taken him to Comoros, Madagascar, South Africa, Poland, Slovakia, Germany, the US, Canada,

Philippines, Jamaica, Trinidad & Tobago, Uganda, Lesotho, and Bangladesh. Jakob serves on the Advisory Boards of The Decision Lab, a Montreal-based applied behavioral science think tank, and Urblandia, a Miami-based platform for solving equitable neighborhoods. He earned his MA in Social-Organizational Psychology from Columbia University and his BBA in International Business Administration from European-University Viadrina.

"I've enjoyed the opportunity to work with Jakob as we guided IFC Nominee Directors through our program," said David R. Koenig, President and Chief Executive Officer of the DCRO Institute. "His leadership and commitment to learning as they do bring extraordinary value to the work of the IFC and the companies in which they invest."

The Certificate in Risk Governance® is awarded to those who have completed The Board Members' Course on Risk® - an intensive 17-course education program and evaluation. The curriculum is designed for current and aspiring board members who seek to advance the governance of risk-taking at their organizations and those who interact with boards. Taught by

some of the world's leading figures in risk governance, the program features lessons by nearly 50 board members, c-level executives, and well-known authors from five continents. No course on risk for board members as robust as this - depth, practicality, and global expertise - exists anywhere else.

"Risk management was a somewhat technical and abstract term to me prior to this course," said Mr. Rusinek. "Now I understand all the complex, diverse, and important angles from which to manage risks in organizations and beyond."

The fundamental Duty of Care for directors around risk is to ensure that our organizations take risks well in pursuit of our goals and ambitions. This course furthers the fulfillment of that duty.
