

# Introducing Deer's Eye View: An AI-Powered App Revealing the World Through the Eyes of Animals

*Deer's Eye View is an AI-powered app that provides a real-time display of the colors that the targeted animal can see, enabling users to adjust their equipment.*

KINGWOOD, TX, HARRIS, September 12, 2023 /EINPresswire.com/ -- Deer's Eye View, a groundbreaking AI-powered app, is set to revolutionize the way hunters, fishermen, and even pet owners understand the visual perception of their an animal. The app's unique [Animal Vision Simulator](#) gives users a real-time display of the colors targeted animals can see or not see, enabling them to make informed decisions and adjust their equipment and surroundings accordingly.

Download Deer's Eye View today on a IOS or Android for a free trial period and see what they see.

The app's advanced technology offers an unparalleled experience for [hunting](#) and [fishing](#) enthusiasts. By selecting their desired animal, such as White-Tail Deer, Hog, Turkey, or Large Mouth Bass, users gain a first-hand witness of the world from the perspective of their prey. Whether sitting in a blind or at the water's edge, Deer's Eye View offers a unique opportunity to see exactly what the animals see, providing valuable insights into their visual preferences.

“

Deer's Eye View is The Ultimate Hunting and Fishing Companion”

*Jonathan Britton*

For avid anglers, the app is a game-changer. Understanding that different fish species have distinct color preferences, Deer's Eye View offers a valuable tool for optimizing the catch. For example, Large Mouth Bass are known to be attracted to colors like green, brown, and purple. With the app, users can ensure their lure reflects these colors, increasing their chances of a successful and rewarding fishing experience.

The advantages of Deer's Eye View extend beyond hunting and fishing. Pet owners can also

benefit from the app's innovative features. By using the Animal Vision Simulator, users can see the world through their pet's eyes, gaining a deeper understanding of their visual perception. This unique perspective can help pet owners create enriching environments and select toys, accessories, and even color schemes that resonate with their furry companions.

#### Key Features of Deer's Eye View:

1. **Animal Vision Simulator:** The app offers a real-time display of the colors that targeted animals can see or not see, giving users unprecedented insights into their prey's visual perception.
2. **Species-Specific Customization:** Users can select their preferred animal, including White-Tail Deer, Hog, Turkey, or Large Mouth Bass, to experience the world from their perspective.
3. **Optimized Hunting and Fishing:** By understanding the colors that attract specific animals, users can adjust their equipment, lures, and surroundings for a more successful and rewarding hunting or fishing experience.
4. **Pet Insights:** Deer's Eye View allows pet owners to gain a deeper understanding of their pets' visual perception, facilitating the creation of enriching environments and tailored experiences.

Deer's Eye View is set to redefine the Hunting and Fishing experience, providing hunters and fishermen with an unprecedented advantage. The app's Animal Vision Simulator, combined with its species-specific customization, empowers users to make informed decisions and optimize their chances of success in the field. Additionally, pet owners can now connect with their pets on a whole new level, enhancing the bond between humans and animals.
