TouchstoneSecure™ is a world-class 24x7x365 proactive managed security service providing customized cybersecurity management. Touchstone's fully-managed security service utilizes military-trained cybersecurity professionals who help clients maintain the confidentiality, integrity, and availability of customer's data and operations. Touchstone's team has experience working with world-class organizations including Disney, Goldman Sachs, and the NSA. Touchstone helps organizations move from a reactive cyber environment to a proactive one by implementing a lightweight yet powerful cybersecurity technology stack. TouchstoneSecure has capabilities to prevent and respond to advanced threats like ransomware attacks.

"We are very pleased to partner with Touchstone Security. The combination of their comprehensive and superior MSSP Service and our innovative CNAPP is precisely what clients need to deal with current and emerging threats in an effective and cost-efficient manner," said Nat Natraj, co-founder, CEO of AccuKnox.

"In the current ever-changing threat landscape, one needs a very comprehensive yet flexible CNAPP solution as the basis of our MSSP offering. AccuKnox's powerful combination of CSPM and CWPP allows organizations to deal with static and dynamic threats. Their technical and product superiority combined with their committed approach to partnership is precisely what we were looking for. We are delighted to forge this partnership with them and look forward to serving our clients," said Rich Shinnick, CEO of Touchstone Security.

AccuKnox Zero Trust CNAPP features include:
 Agentless Cloud Security
 Integrated Static (CSPM) and Run-time Security (CWPP)
 Support for all Public Clouds (AWS, Azure, GCP, Oracle)
 Support for On-Prem / Private Clouds (OpenShift, VMWare) and Hybrid Clouds
 OpenSource, KubeArmor led, DevSecOps powered
 Automated prioritization of vulnerabilities
 Support for Modern Workloads (Kubernetes orchestrated or un-orchestrated) and Traditional Workloads (Virtual Machine, Bare Metal)
 Delivered in a Developer-Centric, Shift Left, DevSecOps model
 Integration with multiple tools, providing flexible security through SOARCAST® (Security Orchestration, Automation, and Response; Continuous Application Security Testing)

"As Cloud Deployments get increasingly intricate and complex, most organizations don't have the budgets or the capacity to hire, train, and retain the requisite team to monitor and remediate threats in an efficient 24X7 manner, which is precisely where MSSPs play a key role. A partnership like the one between AccuKnox and Touchstone Security is precisely what the industry needs," said Ed Lee, Strategic Advisor and Consultant, Cloud Security, RiseAboveResearch, a boutique research firm.
