** About Omada One **

Omada One operates and manages strategically located Business Process Outsourcing (BPO) micro nearshore/offshore contact delivery centers, primarily situated in the Philippines and the Asia Pacific Region, alongside other low labor cost international markets. The company's unique approach bridges the gap between traditional outsourcing and establishing dedicated offshore teams for businesses.

Omada One adopts a crawl-walk-run strategy to manage outsourcing risks effectively. This process commences with a small-scale implementation, clearly defining the scope, proving the concept, and building confidence. As operations progress into the walk and run stages, the company ensures regular reviews and checkpoints to guarantee smooth and uninterrupted services.

Partnering with Omada One enables businesses to experience improved performance, outcomes, reduced costs, and a host of additional benefits. Beyond cost savings, the company's value proposition encompasses enhanced efficiency, execution, flexibility, quality assurance training, and overall performance of the remote nearshore/offshore outsourcing staff.

With its acceptance into the Forbes Business Council, Omada One is poised to make even greater strides in the Manpower Remote Staffing and Contact Center BPO industry, continuing to empower businesses and teams to reach their full potential.
