By packaging, the market is divided into glass bottles, plastic containers, and stand-up pouches. The glass bottles segment accounted for a major share of the guacamole market in 2021 and is expected to grow at a significant CAGR during the forecast period. As there is minimal to no risk to the health of the consumer and no chance that toxins may mix with the final product, glass bottle packaging is seen to be substantially safer. In addition, glass bottle packaging preserves the food or beverage.

According to guacamole market trends, by distribution channel, the market is categorized into online and offline. The offline segment accounted for a major share of the market in 2021 and is expected to grow at a significant CAGR during the forecast period. In the offline segment, supermarket & hypermarket dominates the guacamole market share in 2020 owing to the great demand for avocado fruits in retail.

Based on packaging, the glass bottles segment accounted for the highest share in 2021, contributing to nearly half of the global guacamole market, and is expected to maintain its lead in terms of revenue during the forecast period. However, the pouches segment is expected to manifest the highest CAGR of 6.3% from 2022 to 2031.
