

# Konstant Infosolutions Named as Top Flutter App Development Company by Deccan Herald

*Proceeding gradually, konstant attained a new position among top flutter app Development Company globally - reports deccan herald!*

UNITED STATES, July 27, 2023  
/EINPresswire.com/ -- Businesses looking for premier Flutter developers may pause and check this list by Deccan Herald as their best bet. Waiting in the row, as Konstant Infosolutions was hunting for a bright spot, it landed upon a listing by Deccan Herald, which says, "Konstant tops the list of Flutter App Developers, not by 1 or two positions, but straight off, preceding 9 others".

Flutter is a Google-backed product and is a staple technology behind the company's products like Google Pay, and Google Ads but still, there are many more companies that trust Flutter with mobile app development. Is there some kind of similarity between Alibaba Group, eBay, Toyota, BMW, iRobot, Tencent, eBay Motors, New York Times, Hamilton Musical, MyBMW, Xianyu, Nubank, Realtor.com, and Flydirekt? All these have been built using Flutter.

By shortening the development process and accelerating the time to market, Flutter offers a useful development solution for enterprises on a budget. Flutter enables developers to create sophisticated apps that function flawlessly for Android and iOS platforms, as well as for the web and desktop browsers that run on Windows, macOS, and Linux.

Flutter is very adaptable and efficient for developing VR and AR applications. It is a multiplatform UI toolkit, it enables all kinds of developers in mobile app development companies to quickly build and release applications. Although it is not quite conducive to creating gaming applications. Offering natively compiled experiences for mobile and web, Flutter demonstrates the capability

to provide the app with a user-friendly frontend and a reliable backend that holds the capacity to handle thousands of users in one go.

At Konstant Infosolutions, they combined DART with other front-end and back-end technologies like Node.js, SQL Lite Database, PHP, Real M database, ROR, and Laravel. They have the know-how of leveraging Flutter's Human Interface Design (for iOS) and Material Design Specification (for Android) to obtain a native-like feel.
