“

The voice of the customer remains the most important driver of our strategic vision.”

Max Nirenberg, Commit USA

Commit USA is pleased to announce and welcome Dante Martinez as Vice President of Solutions Architecture for North America. As a leading provider of innovative solutions in the digital space, Commit has experienced remarkable global growth in recent years. Dante will spearhead Commit's rapidly growing partnership with Amazon Web Services (AWS) in North America and will be

instrumental in driving continued success for the company and its customers.

“As we continue to expand Commit's presence in the U.S., the voice of the customer remains the most important driver of our strategic vision. Hiring an AWS-focused onshore technology lead is not only critical to short-term goals but also strategically will enable exponential growth,” said [Max Nirenberg](#), Global Chief Revenue Officer and Managing Director, North America. “The overall goal is customer obsession. With more than a decade of AWS experience and a history of working with partners, Dante's product development expertise combined with Commit's unique selling proposition made Dante the perfect choice.”

With a strong background in the digital space, Dante is well-equipped to navigate the ever-evolving landscape of technology solutions and drive success and growth for the company.

Prior to joining Commit, Dante held several key leadership positions at renowned tech firms, where he played a pivotal role in developing and implementing innovative solutions. His ability to understand and anticipate market trends, combined with his strong leadership skills, make him an ideal candidate for leading the solutions architecture team at Commit.

“I'm excited to join Commit, an organization with a proven track record, startup mindset and

enterprise capabilities,” said Dante. “While Commit's migration and data solutions are clearly world-class, their current investments in AI/ML add tremendous value to their innovation and delivery, and their platform engineering frameworks enable customers to develop and operate at velocity.”

ABOUT COMMIT
