

Jorge Zavala on the Balance of Ethics

Jorge Zavala Calls for Rebalance of Ethics in Society

FRESNO, CALIFORNIA, UNITED STATES, August 10, 2023 /EINPresswire.com/ -- In this strongly-worded Press Release published today, [Jorge Zavala](#), a Presidential Candidate under the Green Party, called for a rebalance of ethics in society. Zavala argued that the current balance of ethics is tilted in favor of the privileged and wealth-obsessed, and that this imbalance has led to suffering for the poor and disabled.

Zavala pointed to the growing issue of homelessness as an example of how this imbalance has led to suffering. He also criticized the way that capitalism often exploits and exposes society to inappropriate content.

Zavala called on us to open our minds and hearts to see the real truth, not just through our eyes and emotions, but through objective analysis of data. He argued that we need to reclaim democracy for the people of the United States and ensure fairness and justice for all.

“The balance of ethics in society has now tilted to favor the privileged and wealth-obsessed,” Zavala wrote. “The expectations about what money can do for a person often leave their souls empty. Money cannot buy happiness, and hate often grows stronger with wealth, further separating the caring and understanding.”
