

CodaPet expands compassionate in-home pet euthanasia services to Athens, GA and surrounding cities

The Veterinarian-owned startup empowers a network of veterinarians who provide peaceful in-home euthanasia to ease the passing of pets at home.

ATHENS, GA, UNITED STATES, August 1, 2023 /EINPresswire.com/ -- [CodaPet](https://www.CodaPet.com/) announced that it is expanding its reach into Athens, GA. The company

provides peaceful in-home pet euthanasia through a network of compassionate and licensed veterinarians who offer end-of-life care for pets at home. In-home pet euthanasia is the best experience for dogs and cats and their families because their home is where they feel most familiar and comfortable.

“

Home euthanasia is the most compassionate way to help relieve the poor quality of life our pets are experiencing. CodaPet provides me with the opportunity to offer this service to more pet owners.”

Dr. Paula Loniak

Dr. Karen Whala, Dr. Gary Hsia and Dr. Bethany Hsia are co-founders and veterinarians of CodaPet. They share a passion to increase both customer access and awareness by empowering a network of veterinarians that provide compassion and professional care to more pets and their families in a familiar environment.

“I was fortunate enough to be able to experience this with my dog Kylie a few years earlier surrounded by family. She was able to pass peacefully in the comfort of our home,

doing what she loved most, sunny bathing in the grass. It really reduced her anxiety and helped my young kids process saying goodbye to their first dog” says Dr. Gary Hsia. “I hope that every family in the Athens, Georgia area becomes aware that [in-home euthanasia](#) is an option so they have an opportunity to provide a final gift of love to their beloved pet.”

“Home euthanasia is the most compassionate way to help relieve the poor quality of life our pets are experiencing. CodaPet provides me with the opportunity to offer this service to more pet

owners." says Dr. Paula Loniak, a veterinarian with almost 30 years of experience.

[Dr. Loniak services Athens, GA](#) and surrounding neighborhoods including Lexington, Crawford, Arnoldsville, Winterville, Stephens, Carlton, Colbert, Comer, Maxeys, and Rayle.

Benefits of In-home Pet Euthanasia include:

1. Familiar and Comfortable Environment: One of the primary advantages of in-home euthanasia is that it allows pets to remain in a familiar and comfortable environment during their final moments. Being in a place they know well can help reduce anxiety and fear, providing a sense of security and peace. This can be particularly beneficial for pets who may be stressed or anxious when visiting a veterinary clinic.

2. Reduced Stress and Anxiety: For many pets, visiting a veterinary clinic can be a source of stress and anxiety. The unfamiliar smells, sounds, and sights can cause fear and discomfort, making the euthanasia process more challenging for both the animal and their owner. In-home euthanasia eliminates these stressors, allowing pets to be in a calm and relaxed state during their last moments.

3. Enhanced Emotional Support: In-home euthanasia provides an opportunity for pet owners to say goodbye to their beloved companions in a private and intimate setting. Being able to surround themselves with familiar surroundings and loved ones can offer emotional support during this difficult time. Additionally, having control over the environment allows owners to create a peaceful atmosphere that promotes healing and closure.

4. Personalized Care: In-home euthanasia allows for personalized care tailored to the specific needs of each pet and their family. Veterinarians who provide this service often take the time to understand the unique circumstances surrounding the decision, offering guidance, empathy, and compassion throughout the process. This personalized approach ensures that both the pet's physical comfort and emotional well-being are prioritized.

5. More Time for Goodbyes: In a veterinary clinic setting, there may be time constraints due to the need to accommodate other appointments. In-home euthanasia allows for more flexibility, ensuring that there is ample time for owners to say their final goodbyes and spend quality time with their pets before and after the procedure. This additional time can be invaluable in the grieving process and can help facilitate closure.

6. **Minimized Travel Discomfort:** For pets who are experiencing pain or discomfort, traveling to a veterinary clinic can exacerbate their condition. In-home euthanasia eliminates the need for transportation, reducing any potential discomfort or stress associated with traveling. This is particularly beneficial for pets with mobility issues or those in advanced stages of illness.

7. **Control Over the Process:** In-home euthanasia provides pet owners with a greater sense of control over the entire process. They can choose the timing, location, and atmosphere in which their pet's life will end. This control can help alleviate feelings of helplessness and allow owners to feel more empowered during a challenging and emotional time.

8. **Privacy and Dignity:** In-home euthanasia allows pets to pass away peacefully in the presence of their loved ones, maintaining their dignity until the very end. The privacy of home euthanasia ensures that the process remains intimate and personal, allowing owners to grieve without feeling rushed or exposed.

How In-home Pet Euthanasia Works

Through CodaPet, pet parents can easily book in-home pet euthanasia performed by a compassionate and licensed veterinarian. Prior to the appointment, the veterinarian contacts the family to address any questions or concerns they might have. At the appointment, the veterinarian assists the family by going over the diagnosis and applying a quality-of-life assessment to objectively assess the pet's health and ensure there is no uncertainty about the need for euthanasia.

The visit takes, on average, 45 minutes. Pet parents have a window of time to be with their pets privately before and after the euthanasia procedure. The veterinarian only starts the euthanasia process when everyone is ready. This helps bring closure to all family members involved in the end-of-life care of a pet. For those who need support with aftercare, the veterinarian can assist with transportation and cremation services.

In-home Pet Euthanasia Costs

The cost of in-home euthanasia starts at \$300 in Athens, GA. Aftercare begins at \$130 for communal cremation but the final price depends on factors such as the driving distance, the pet's size, and the option for private or communal cremation. The company also offers out-of-hours appointments for an additional fee.
