About the Author:

Monty has been a member of The Rosicrucian Order AMORC since 1981, he has developed a good tool kit for living well on this planet we call Home. He has also studied Core Belief Engineering, Mind Dynamics, Heart Resonance Therapy, Jin Shin Jyutsu, and Reiki. These studies have enabled him to develop a strong connection with Source through which he has been provided some other practical intuitive techniques.

Monty's interest in the non-physical side of healing began with a program he studied at Douglas College in New Westminster BC Canada back in 1970, called Human Development. It was offered by two very open-minded social workers. It was the beginning of his never-ending quest to understand the human mind and its impact on people's lives from an intuitive perspective.

Monty is also a seasoned public speaker having completed the Competent Toastmaster level three times plus the Able Toastmaster level in Toastmasters International, where he wrote and facilitated many workshops and keynote talks. In fact, his love for writing books came from writing speeches in Toastmasters. Monty's passions are personal evolution, nature and traveling.
