To participate, companies or government entities were required to have at least 15 workers in Florida and to be in operation at least one year. Companies that chose to participate underwent an evaluation of their workplace policies, practices, philosophy, systems and demographics. The process also included a survey to measure employee satisfaction. The combined scores determined the top companies and the final ranking.

“It's clear the nature of the workplace has fundamentally changed, not only in hybrid work

becoming a permanent part of the business landscape but in the expectations of employees when they do come to the office,” said Florida Trend Executive Editor Vickie Chachere. “What remains unchanged is that companies who listen to their employees and create workplaces that enhance the quality of life for their teams are rewarded with productivity, stability and a thriving work environment.”

“Innovative, inspirational and visionary: these Florida companies continue to set trends for others to follow,” said Florida Trend Publisher David Denor. “This group of impressive companies continues to recruit, retain and deliver unique workplace environments for their employees and clients alike. Not afraid to take chances or step outside the norms, the Best Companies To Work For In Florida are risk takers that provide us with a glimpse of what tomorrow’s workforce and workplace environments could look like.”

The Best Companies To Work For In Florida program is managed by Florida Trend and Workforce Research Group and is endorsed by the HR Florida State Council. Workforce Research Group managed the registration, survey and analysis and determined the final rankings.
