

RYZR Introduces Revolutionary Emotional Intelligence and Love Style Assessment Products

SCOTTSDALE, AZ, USA, August 1, 2023

/EINPresswire.com/ -- Today, [RYZR](#), a pioneering health and wellness company leveraging science and technology to empower individuals with accurate self-knowledge and paths to improvement, announced a major website update. The company's co-founder and Chief Scientific Officer, Erica Koelling, announced the launch of two groundbreaking assessment products, an Emotional Intelligence Assessment, and a Love Style Assessment.

“

Ultimately, there's one investment that supersedes all others: Invest in yourself. Nobody can take away what you've got in yourself, and everybody has potential they haven't used yet.”

Warren Buffett

"This is a momentous milestone for RYZR. We believe these new assessments will help individuals understand their emotional quotient and their style of love and relationships better, ultimately aiding them on their path to becoming the best version of themselves," said Erica Koelling.

The Emotional Intelligence Assessment provides an in-depth understanding of a person's ability to perceive, control, and evaluate emotions in both themselves and others. It can play a vital role in personal growth,

development, and relationship management. The Love Style Assessment, on the other hand, provides insights into an individual's approach to love and relationships, helping them navigate their personal lives more effectively.

In addition to the new products, RYZR's website update also includes a free lite version of the personalized report for all six products, further expanding the company's vision; democratizing self-awareness, enabling upliftment, and perpetuating progress.

RYZR's assessments, now totaling six, include the Strengths, Values, Career, Love, Emotional Intelligence, and Vitality Assessments. They vary between 62 and 112 evaluation points and take between 15 and 30 minutes to complete.

Upon completion of the assessments, customers instantly receive a comprehensive report providing accurate self-knowledge, an analysis of the critical attributes evaluated, and a recommended plan to leverage these key findings into their lives.
