### Short Description About Caviar Market:

The Global Caviar market is anticipated to rise at a considerable rate during the forecast period, between 2023 and 2030. In 2022, the market is growing at a steady rate and with the rising adoption of strategies by key players, the market is expected to rise over the projected horizon.

Caviar is an expensive delicacy consisting of the unfertilized eggs (roe) of sturgeon brined with a salt solution. Classic caviar comes primarily from Iran or Russia, harvested by commercial fishermen working in the Caspian Sea. A specific species of sturgeon called beluga provide what many consider to be the best in the world.

In consumption market, the growth rate of global consumption is rapidly rising. Europe and USA are still the mainly consumption regions due to the advanced production technology and rapid development of economy. Because caviar raw materials come from sturgeon fish, and caviar mainly used in food. Moreover, the technology to breeding sturgeon is seized by large companies, so that they account for the most part of the market. Caviar products downstream demand basically growing globally, and then the demand would rise in emerging industrial countries and the country influenced by European and American culture. Recently, Caviar was accepted by all the people of the world. In the future, the caviar manufacturer in China will be increasing; China caviar consumer market will be a certain amount of growth. China will become the production and consumption power country, which may change the caviar market in Asia.
