## Definition:

Payroll outsourcing services in a business means engaging an external party to handle all payroll related activities. Outsourcing of payroll functions is generally done to reduce cost and save time required to deal with financial tasks related to payroll. Hiring an external firm to handle payroll

activities means a business organization can do away with the need to hire and train a large in-house payroll staff, buy appropriate software packages for payroll functions, and remain constantly updated about complicated tax regulations. Payroll outsourcing services are beneficial for all kinds of businesses, regardless of the organization having a large payroll or a mid-range or small payroll. This has projected the growth of the global payroll outsourcing services market over the forecast period.

#### Market Trends:

- Growing Focus on Business Process Automation
- Emphasizing On the Technological Advancement in the Payroll Outsourcing Services

#### Market Drivers:

- Rising Adoption of New IT Solutions like Payroll Outsourcing Services
- Growing Digitization in Numerous Industries across the Globe

#### Market Opportunities:

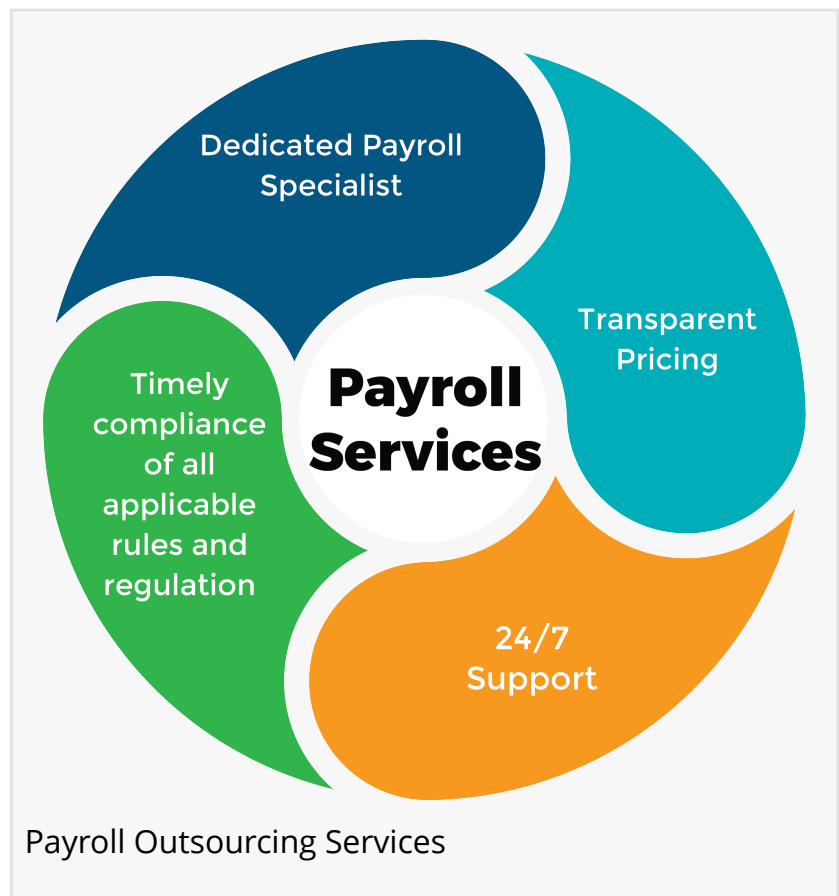

- Growth in the IT Sector in Emerging Economies
- Increasing Demand for Payroll Outsourcing Services From the Manufacturing and BFSI Industry

Revenue and Sales Estimation — Historical Revenue and sales volume are presented and further data is triangulated with top-down and bottom-up approaches to forecast complete market size and to estimate forecast numbers for key regions covered in the report along with classified and well-recognized Types and end-use industry.
