

# Ascendum Solutions Recognized as a 2023 CNBC World's Top Fintech Company

*Cincinnati-based global custom software development and data engineering firm was recognized for digital innovations in the fintech industry.*

CINCINNATI, OH, UNITED STATES,  
August 3, 2023 /EINPresswire.com/ --

Ascendum Solutions, a global digital innovation firm, was recognized by CNBC and Statista as one of the 2023

World's Top Fintech Companies in the Digital Business Solutions category. The segment includes companies offering finance-related and technology-based products and solutions to help businesses improve and automate their processes.

Ascendum is an award-winning global technology firm dedicated to delivering pioneering ideas and solution-based outcomes that enrich our clients' customer experiences and business operations.

“

I commend our team for their outstanding innovations and unwavering commitment to helping our clients achieve their digital transformation goals.”

*Kris Nair, President & CEO*

The list recognizes the top 200 fintech companies globally across nine categories. Ascendum is one of 25 global companies and one of 10 US companies awarded in the Digital Business Solutions category.

The selection of the companies and the definition of the evaluation criteria were based on independent journalistic criteria of CNBC and Statista. The evaluation was conducted by the statistics and market research company Statista. To be included in the top list is a positive

recognition based on research of publicly available data sources and information received via an application process.

"We are deeply honored and proud to be acknowledged as one of the World's Top Fintech Companies by CNBC. This award is a testament to the hard work and dedication of our employees, who bring their best selves to work each day," said Ascendum President and CEO Kris Nair. "I commend our team for their outstanding innovations and unwavering commitment to helping our clients achieve their digital transformation goals. Our heartfelt thanks go out to our employees for their commitment, our clients for their trust and lasting partnerships, and all those who reviewed our application for appreciating our ongoing commitment to digital

innovation.”

The top list is based on the analysis and weighting of overarching and segment specific KPIs derived from the following research methods:

- Collection of publicly available data points for more than 1,500 companies.
- An open online application form filled out by more than 100 companies.

The companies with the highest score within their market segment were awarded as CNBC’s World’s Top Fintech Companies. [View the list of companies here.](#)
