The global Family or Indoor Entertainment Centers market size was valued at USD 22632.63 million in 2022 and is expected to expand at a CAGR of 12.89% during the forecast period, reaching USD 46840.56 million by 2028.

Family or indoor entertainment centers (FECs) refers to the small amusement parks or entertainment zones that usually operate in local communities around big and small cities. The wide range of games and activities provide entertainment for all ages and leave every member of the family with a fun and thrilling experience.

FEC offer a variety of fun options such as physical play activities, gaming consoles, arcades, video games, indoor playground systems, playground areas, skill-oriented machine games and others. These centers also host private events such as corporate events and birthday parties in areas such as malls. The popularity of these centers is growing as it offers different engaging services like food & beverages, edutainment games, AR & VR based games and other entertainment options which are gaining rapid traction in the market.

Client Focus:

Since the outbreak of COVID-19, the world economy continues to suffer from many destructive

risks, many companies have experienced bankruptcy and a reduction in exchange rates. After more than two years of the epidemic, the world economy has begun to recover, entering 2023, the invasion of Ukraine by the Russian Federation and its global impact on commodity markets, supply chains, prices and The financial situation has led to the decline of international. taste. In particular, the war in Ukraine is causing prices to rise and disruptions in the energy market, working better for energy exporters than being pushed head-to-head to work and many other economies. The invasion of Ukraine has also caused the price of agricultural products to increase, which increases food insecurity and extreme poverty in many emerging and developing countries.
