

Onyx Leadership Team Honored with Outstanding Leadership Awards at International Health 2.0 Conference

OnyxHealth.io's leadership team has been Honored for exceptional contributions to healthcare interoperability at the 2023 International Health 2.0 Conference.

ELKRIDGE, MD, USA, August 3, 2023 /EINPresswire.com/ -- Onyx Technology LLC, a leading [healthcare](#) technology company, is proud to announce that its CEO, Susheel Ladwa, and Chief [Interoperability](#) Officer, Mark Scrimshire, have been recognized for their exceptional contributions to the field of healthcare at the prestigious International Health 2.0 Conference (health2conf.com) held in Las Vegas from July 10 to 12, 2023.

“

We are thrilled to see Susheel Ladwa and Mark Scrimshire receive this well-deserved recognition for their exceptional leadership and contributions to healthcare”

Patrick Munis, CEO of parent company, NewWave

The International Health 2.0 Conference brings together visionaries, innovators, and leaders in the healthcare industry to discuss the latest advancements and trends in healthcare technology. It serves as a platform for

recognizing outstanding individuals and organizations that have made significant contributions to transforming healthcare through technology and innovation.

Susheel Ladwa, a seasoned entrepreneur and visionary, has been instrumental in guiding Onyx to become a trailblazer in the healthcare industry. Under his leadership, Onyx has revolutionized the way healthcare organizations manage and exchange data, improving patient care and outcomes. With a keen focus on interoperability and the adoption of emerging technologies, Ladwa has spearheaded Onyx's mission to create a more connected and efficient healthcare ecosystem.

Mark Scrimshire, a recognized expert in healthcare interoperability, has played a pivotal role in advancing Onyx's vision of [seamless data exchange](#) across healthcare systems. His relentless pursuit of interoperability standards and commitment to fostering collaboration among stakeholders have accelerated the integration of disparate healthcare technologies. Scrimshire's deep domain expertise and innovative thinking have positioned Onyx at the forefront of the interoperability revolution in healthcare.

The Outstanding Leadership Awards bestowed upon Susheel Ladwa and Mark Scrimshire at the International Health 2.0 Conference are a testament to their unwavering dedication and remarkable achievements in driving positive change in the healthcare industry. Their visionary leadership and tireless efforts have not only transformed Onyx into a market leader but have also had a profound impact on the broader healthcare ecosystem.

"We are thrilled to see Susheel Ladwa and Mark Scrimshire receive this well-deserved recognition for their exceptional leadership and contributions to healthcare," said Patrick Munis, CEO of parent company, NewWave. "Their passion for innovation and commitment to improving patient care through technology have been the driving force behind Onyx's success. We are proud to have them as part of our team and congratulate them on this prestigious honor."

About Onyx Technology, LLC

Onyx Technology, LLC is a healthcare managed interoperability compliance solutions provider. Onyx emerged from work with CMS in establishing the nation's first nationwide FHIR-based API, Blue Button 2.0. Building on this experience and expertise, Onyx has partnered with Microsoft to build the industry's leading platform for FHIR-based interoperable exchange. Focused on standards-based, interoperable technologies that ensure security, privacy and the delivery of the right information to the right place at the right time, Onyx is the expert in enabling our customers to garner the greatest value from their participation in the healthcare eco-system of tomorrow.
