*Boosting Safety in High Impact Sports:
Ezy Mats Enhances Crash Mats Range to
Reduce Injury Risk*

SYDNEY, NSW, AUSTRALIA, August 4, 2023 /EINPresswire.com/ -- Ezy Mats, a leading supplier of gym and training mats, today announced significant improvements to their range of [crash mats](#). The newly enhanced crash mats are engineered to help reduce the risk of injury during high impact activities, meeting a critical need in the sporting community.

While a traditional [jigsaw mat](#) and general-purpose [gym mats](#) have been effectively used to create comfortable surfaces for training, Ezy Mats recognises that some activities require an additional layer of protection. High

impact sports such as judo, where athletes routinely practice throws, necessitate a different level of cushioning to absorb the force of landings effectively.

The upgraded Ezy Mats crash mats are designed with advanced materials and new construction techniques to provide this superior level of safety. They incorporate innovative impact absorption technology, helping reduce the risk of injury, thereby offering athletes of all ages and abilities the chance to perform at their best with greater peace of mind.

“

These mats are not a panacea for all injuries, but they are a significant step forward in sports safety.”
