Market Analysis and Insights: Global Mechanical Keyboards Market

Mechanical keyboards are a kind of keyboards with full individual switches under every key. These switches are made of several moving parts: a hard plastic "stem" contains two metal contacts and a spring underneath. When a key is pressed, the stem pushes the spring down so the two metal contacts connect, registering your key press to the keyboard's circuitry and therefore to your computer.

The global Mechanical Keyboards market size was valued at USD 1308.8 million in 2022 and is forecast to a readjusted size of USD 2938.8 million by 2029 with a CAGR of 12.2 percentage during review period.
