

# Liveplex and Eclipses Unite to Fortify Blockchain Security for Web 3.0 Digital Transformation

*Liveplex announces another milestone in its strategic partnership with Eclipses, Inc. to reinforce the security of blockchain implementations.*

PALO ALTO, CA, UNITED STATES, August 7, 2023 /EINPresswire.com/ -- [Liveplex](#), a prominent technology firm at the forefront of the next-generation internet revolution, announces another milestone in its strategic partnership with [Eclipses](#), Inc. to reinforce the security of blockchain implementations. Liveplex technology, which power the Web 3.0 ecosystem, provides brands with seamless integration into any blockchain, storage, and data reporting tool.

MTE secures data within the application, enabling Liveplex implementations to be more secure than its counterparts.

Eclipses has a patented technology that provides real-time, consistent data security across various application channels, including event-driven applications, mobile apps, web apps, and IoT ecosystems.

This helps us to empower our customers with accelerated adoption and monetization opportunities in the Web 3.0 transformation."

*Vimal Kumar, President at Liveplex*

Through the utilization of the Eclipses Cryptographic Library (ECL), MTE<sup>®</sup> offers unparalleled end-to-end security capabilities. Each end-point connection is meticulously verified, and data packets are uniquely protected, guaranteeing a secure experience for users while having minimal impact on system resources. Notably, MTE<sup>®</sup> secures data within the application, enabling Liveplex implementations to be more secure than its

counterparts.

"Protecting sensitive data from escalating cyber threats is paramount," states [Bryan Champagne](#), Chief Executive Officer at Eclipses. "The partnership between our team and Liveplex sets a new standard for blockchain security, offering customers an unmatched level of data protection within the Web 3.0 landscape."

This collaboration ensures Liveplex customers benefit from comprehensive data protection, safeguarding against a myriad of cyber threats, including man-in-the-middle attacks, zero-day attacks, malware, brute force attacks, jailbroken/rooted devices, attack surfaces, attack vectors caused by third-party applications, SIM swapping and cloning attacks, networking spoofing, and operating system defaults.

"We are thrilled to celebrate another milestone in securing our customers with the help of Eclipses. This helps us to empower our customers with accelerated adoption and monetization opportunities in the Web 3.0 transformation," said Vimal Kumar, President at Liveplex.

For further information about this partnership and the advanced security solutions it offers, please visit [www.eclipses.com](http://www.eclipses.com) or [www.liveplex.io](http://www.liveplex.io).

#### About Eclipses

Eclipses sets the new standard for protecting sensitive data during transit. Eclipses developed the MTE technology to be the most innovative and disruptive security solution for protecting data communication for web and mobile applications, IoT devices, and Kafka environments. In 2022 and 2023, Eclipses won Best Security Solution in the FTF News Technology Innovations Awards. For more information, please visit [www.eclipses.com](http://www.eclipses.com).

#### About Liveplex

Liveplex technology empowers businesses to transition seamlessly to the Web 3.0 ecosystem through its integration-ready APIs. Leveraging easily integrated, modular features, Liveplex enables businesses to meet the expectations of safety, privacy, security, and governance demanded by their customers. The technology facilitates integration with any chosen blockchain, preferred storage solutions, and aligned data reporting tools. For more information, please visit [www.liveplex.io](http://www.liveplex.io).
