

# CW Aero Services Partners with Asystem to Offer AI Predictive Maintenance Solution

*CW Aero Services Partners with Asystem to Collaborate and Offer AI Predictive Maintenance Solution for Aerospace and Other Critical Industries*

SINGAPORE, August 8, 2023

/EINPresswire.com/ -- CW Aero Services (CWAS), a leading provider of aviation and digital solutions, is pleased to announce a strategic partnership with Asystem, a global leader in AI (Artificial Intelligence) powered predictive maintenance solutions. This partnership will enable CWAS to distribute Asystem's innovative AI predictive maintenance solutions in the Singapore market.

AI Predictive Maintenance

Asystem's comprehensive non-intrusive, multi-sensor solution, which includes integrated ultrasound, multi-axis vibration, and temperature sensors, allows businesses to collect data wirelessly using the long-range LORAWAN network. This data is then analyzed and monitored by Asystem's AI-powered, machine learning server backend, enabling proactive predictive maintenance strategies and timely insights for optimized operations.

“

Through this partnership, we can help our clients in aerospace and other critical industries optimize their operations, improve reliability, and reduce costs.”

*Julien Valette*

The complexity and criticality of today's industrial systems demand advanced predictive maintenance approaches. Asystem's cutting-edge integrated sensors and machine learning technology empower businesses to proactively transition from reactive to predictive maintenance strategies, resulting in significant cost savings and improved asset performance.

CW Aero Services will serve as a local technology partner of Asystem's AI predictive maintenance

solutions in Singapore, leveraging its extensive local support network and one-stop technical expertise in various industrial sectors, to provide unparalleled access to state-of-the-art maintenance solutions.

"We are thrilled to partner with Asystem and offer their predictive maintenance solution to the Singapore market," said Julien Valette, Managing Director of CW Aero Services. "Asystem's solution perfectly complements our commitment to deliver innovative digitalization solutions. Through this partnership, we can help our clients in aerospace and other critical industries optimize their operations, improve reliability, and reduce costs."

"We are delighted to collaborate with CW Aero Services as our partner in Singapore," said André Naccache, Managing Director of Asystem. "CWAS's deep understanding of the aerospace and industrial sectors, as well as its strong presence and technical competence, make them an ideal partner to bring our AI predictive maintenance solutions to a wider range of customers. Together, we can help businesses across various critical industries achieve significant improvements in operational efficiency, cost savings, and asset performance."
