About Japan World Heroes:

Japan World Heroes is a premier Japanese pop culture convention in Los Angeles that brings together fans, artists, and celebrities from the worlds of Super Sentai, Ultraman, Kamen Rider, and Godzilla. With a rich array of attractions and guests, Japan World Heroes offers an unforgettable experience for enthusiasts of all ages. Follow us on social media for updates and announcements.

From the Promoter

With Power Morphon we have a very set fan base for Power Rangers. At Japan World Heroes we wanted to show the other sides of Tokasatu and the many other elements they may have never seen before. This gives us an opportunity to not only feed the hungry audience in the States for these Japan-locked genres but also expose them to a wider captive fan base that would love it all as much as I do if they were just given the chance.

Thank you for being part of that,
