A Legacy Brought to Life

Meet Richard and Terry Jane England, a couple whose history traces back to the heart of Edgewater, Florida. Their roots run deep in this vibrant community, with generational ties that lend a unique authenticity to their story.

A Masterpiece in the Making

Over 2.5 years of unwavering commitment, Richard and Terry Jane collaborated with regionally renowned architect Will Miller, who boasts a connection back to the iconic Frank Lloyd Wright. Working alongside Will Hill, interior designer Rob Turner of Orlando's Phil Kean Design, the two

collaborated harmoniously to create the Englands' dream of an unrivaled family compound.

Indulge in Laid Back Luxury

- Main Home: A sprawling 4,455 sq. ft. sanctuary, featuring 3 bedrooms, 3 full and 2 half baths, and a meticulously designed custom 500-bottle temperature-controlled wine cellar.

- Artist Workshop:** A 286 sq. ft. haven for creativity to flourish.

- Keystone Cottage: An 818 sq. ft. refuge boasting one bedroom, one bath, and a fully equipped kitchen.

- Wood Working Shop: Over 1,200 sq. ft. of climate-controlled space, equipped with state-of-the-art machinery, it's own half bath and a 544 sq. ft. garage loading dock beneath soaring 16' ceilings.

- A Sanctuary of Possibilities: The property provides vertical living space, including a 3-car oversized garage and abundant room for expansion on its sprawling 1.2-acre canvas.

Craftsmanship Elevated to Art

Wondering through the lush, manicured gardens, the boundaries between indoors and outdoors are so artfully blended that it becomes difficult to discern where one ends and the other begins. Guest will be struck by a design that blurs the lines

between inside and out. This unity with nature is enhanced by a custom 22 foot tall window that faces the Intracoastal. It boasts a red divided light frame that evokes a similar feature on Frank

Enter the home and be captured by the grandeur and elegance. The custom sculptural mahogany and limestone staircase with its stainless steel/glass railing becomes an embodiment of functional artistry. The stacked mahogany structure artistically knits together the stone and wood in what is likely the most sculptural feature of the interior. The 500-bottle temperature-controlled wine cellar nestles beneath this masterpiece, a nod to the appreciation of fine living.

Elegance in Every Detail

Mahogany, the hallmark of sophistication, graces virtually every visible wood surface. The Florida Keystone, sourced from a Homestead quarry, not only adorns the walls but also preserves fossils within its 3" thick stone, capturing the passage of time and nature's grace.

Legacy Lives Here

More than a house, 1006 S. Riverside Dr. embodies a legacy that resonates with heritage, craftsmanship and artistic vision. Discover a masterpiece within this enchanting tale, and explore a residence that is more than just a home—it's a testament to the stories we weave and the life we create.
