

Mrs. California Reveals Permanent Non-Surgical Revision Nose Job

Two Failed Surgeries But No Desire For Temporary Solution

LOS ANGELES, CA, UNITED STATES, August 10, 2023 /EINPresswire.com/ -- Sarah Grace Lee, the reigning Mrs. America, recently revealed that she opted to have a permanent filler— not temporary — revision nose job. The so-called “liquid or filler rhinoplasty”. Sarah Grace commented that “I had two operations and one included inserting a plastic part onto the bridge of my nose to elevate it. Not successful. After two failed surgeries, I did not relish a third. But I learned there’s a wise option: micro-injecting permanent filler to raise the still-low bridge and refine the nose’s tip. Temporary fillers were not attractive. Who wants a life sentence of doctor visits to keep replacing the dissolved filler? My research led me to [Dr. Robert Kotler](#) Beverly Hills’s Rhinoplasty superspecialist. The nose guy. That’s nearly all he does. He has unique permanent filler experience, over 40 years. I learned that no other doctor has his talent and long experience performing this in-office treatment. Dr. Kotler even offers The Kotler Saline Demo. It’s a ‘test drive’ or sneak preview of the permanent filler result. The salt water filler disappears in two hours. The hand-mirror shows you the anticipated result. Can’t beat that. For me, this permanent non-surgical revision rhinoplasty is working out very well. Good choice. I am surprised more people with unsatisfactory results after one or more unsuccessful nose jobs do not go this route.”
