North America dominates the market, in terms of revenue, followed by Asia-Pacific, Europe, and LAMEA. U.S. dominated the global airport stand equipment market share in North America in 2020, owing to increase in R&D activities, technological developments by key players, and rapid adoption of innovative technologies in making reliable airport stand equipment. Asia-Pacific is expected to grow at a significant rate during the forecast period, owing to rise in air traffic across several Asian nations, for instance, China, India, Japan, and South Korea.

By stands the airport stands equipment market is segregated into engine access, landing gear access, wheel, aircraft entry, cabin interior, and others. The aircraft entry segment accounted for the highest revenue in 2020, owing to increase in demand for airport stands equipment that are used for various applications at the airports.

Depending on application, the [airport stands equipment market size](https://www.alliedmarketresearch.com/airport-stands-equipment-market) is segmented into aircraft operations and maintenance, repair, & overhaul (MRO). The aircraft operations segment was the highest revenue contributor in 2020, owing to increase in demand for airport stands equipment, which are used for numerous operations at the airport.
