### Heavy Duty Tarps

**Vinyl Tarps, Canvas Tarps, Poly Tarps, and Mesh Tarps**

Heavy Duty Tarps provide unparalleled protection for materials, equipment, and structures in a wide range of applications including commercial, manufacturing, trucking, construction, landscaping, and domestic settings. A few important characteristics actually make a tarpaulin heavy duty such as heavy mesh count with a strong thread shaft. At Tarps Now you will find the largest selection of heavy duty vinyl tarps, canvas tarps, poly tarps, and mesh tarps.

Other considerations when choosing heavy duty tarps is its denier, or thickness. To make sure there is the necessary strength to withstand harsh conditions and elements, a thicker denier may be required. Whatever your needs, Tarps Now has a Heavy Duty Tarp for every job. View our huge selection and contact us today! Made in the USA.

hazardous, surplus fabric can lead to wind-induced disturbances or entanglement hazards with passing equipment, vehicles, or individuals. A well-fitted Custom Tarps, Custom Covers, and Custom Industrial Curtains not only presents a neat and orderly appearance but, more crucially, guarantees a secure and protected operational environment.

The emphasis on proper sizing and fit underscores the foundational role it plays in effective protection. In tandem with this, selecting the most suitable material for the intended applications is equally paramount. Custom Tarps and Custom Industrial Curtain Walls are meticulously crafted from a range of durable materials, including vinyl, clear vinyl, poly, mesh, nylon, and canvas. These fabrics can be tailored to include specific protective attributes such as waterproofing, water resistance, UV resistance, and fire resistance.

Among the highly sought-after products constructed from clear vinyl fabric are Custom Clear Vinyl Tarps and Custom Clear Vinyl Industrial Curtains. These versatile solutions find frequent use among homeowners, restaurants, bars, business proprietors, and various facilities. They adorn porches, patios, decks, entryways, and breezeways, enhancing living and dining areas by allowing productive and enjoyable utilization even during colder months while maintaining protective transparency.

## Shade Tarps

**SUN SHADE TARP**

At Tarps Now, Sun Shade Tarps are specifically made to provide both optimal shade coverage and weather protection. Manufactured in the United States, our shade tarps feature a knitted polyethylene mesh material with heavy-duty polypropylene webbing, providing excellent weather and sunlight protection but allowing airflow. Available in black, we offer four different shade levels – 40, 50, 60 and 70 percent shade. We can also customize shade coverage to accommodate your application.

Tarps Now Sun Shade Tarps are typically used for agriculture applications, such as covering greenhouses and nurseries. In addition, shade tarps protect livestock from too much sunlight. While shade tarps do provide protection from extreme outdoor elements, they are specifically used to lessen the intensity of midday sun. A high quality shade tarp protects your plants and animals from harmful sunlight, optimizing the health of your plants and animals. They can also be used for outdoor kennels.
