

# Eco BCG was named as the #1 Engineering Company and the #1 Minnesota Fastest Growing Company in America, by INC 5000

*Eco BCG, an MN-based Engineering Company was named the #1 Engineering Company and the #1 Minnesota Fastest Private Growing Company by INC 5000, this year.*

NEW YORK, USA, August 15, 2023 /EINPresswire.com/ -- Inc. revealed today that [Eco BCG Corporation](#) ranks No. 121 on the 2023 Inc. 5000, its annual list of the fastest-growing private companies in America. The prestigious ranking provides a data-driven look at the most successful companies within the economy's most dynamic segment—its independent, entrepreneurial businesses. Facebook, Chobani, Under Armour, Microsoft, Patagonia, and many other household name brands gained their first national exposure as honorees on the Inc. 5000.

"Eco BCG is honored to be on the list for the first time as the #1 Engineering Firm and the #1 private company in Minnesota. It has been an exciting journey and a great deal of effort from the team to get here and we are very optimistic about our future", said Eco BCG's CEO, Sergio Castillo. "To be recognized as one of the fastest growing companies in America is a dream for me and our team."

The Inc. 5000 class of 2023 represents companies that have driven rapid revenue growth while navigating inflationary pressure, the rising costs of capital, and seemingly intractable hiring challenges. Among this year's top 500 companies, the average median three-year revenue growth rate ticked up to an astonishing 2,238 percent. In all, this year's Inc. 5000 companies have added 1,187,266 jobs to the economy over the past three years.

For complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, location, and other criteria, go to [www.inc.com/inc5000](http://www.inc.com/inc5000). The top 500 companies, including Eco BCG Corporation, are featured in the September issue of Inc. magazine, available on newsstands beginning Tuesday, August 23.

"Running a business has only gotten harder since the end of the pandemic," says Inc. editor-in-chief Scott Omelianuk. "To make the Inc. 5000—with the fast growth that requires—is truly an accomplishment. Inc. is thrilled to honor the companies that are building our future."
