The Global Business Process Outsourcing (BPO) market is anticipated to rise at a considerable rate during the forecast period, between 2023 and 2030. In 2022, the market is growing at a steady rate and with the rising adoption of strategies by key players, the market is expected to rise over the projected horizon.

Market Analysis and Insights:

Business process outsourcing (BPO) is defined as a subset of outsourcing that involves the contracting of the operations and responsibilities of a specific business process to a third-party service provider.

The global Business Process Outsourcing (BPO) market size is projected to reach US\$ 241370 million by 2028, from US\$ 180440 million in 2021, at a CAGR of 4.2% during 2022-2028.

Business Process Outsourcing (BPO) is a subset of outsourcing that involves the contracting of the operations and responsibilities of specific business related functions, typically IT related, to a third party service provider. This process usually involves multi-year, lucrative contracts between the client firm and service provider firm. Often, the employees of the service provider firm working for the client firm are incorporated in the client firm. Off-shoring, which is delegating work to a company based in another country is widely carried out by many global companies. Another similar outsourcing activity called Knowledge Process Outsourcing (KPO) functions on similar lines with the exception that highly critical tasks that involve skill, knowledge, education and expertise are outsourced to third party service providers. Types of services carried out by BPOs include administration, finance and accounting, human resources, payment services, logistics and distribution, customer support, etc. Types of services carried out by KPO include intellectual property research for patent applications, legal and medical services, training, market research, business research, consultancy, research and development, etc. BPO finds applications in many verticals such as manufacturing, telecommunications, technology, banking, insurance and finance services, retail and healthcare among others.
