Figure 1: Global Virtual Router Market Size -

The global Virtual Router market size was valued at USD 182.14 million in 2021 and is expected to expand at a CAGR of 23.72% during the forecast period, reaching USD 653.14 million by 2027.

Virtual router is a software-based system that does everything your hardware router can do (and some things it can't). A virtual router like Connectify Hotspot can broadcast WiFi right from your PC, so that any other WiFi-enabled device can get online.

The report combines extensive quantitative analysis and exhaustive qualitative analysis, ranges from a macro overview of the total market size, industry chain, and market dynamics to micro details of segment markets by type, application and region, and, as a result, provides a holistic view of, as well as a deep insight into the Virtual Router market covering all its essential aspects.

For the competitive landscape, the report also introduces players in the industry from the perspective of the market share, concentration ratio, etc., and describes the leading companies in detail, with which the readers can get a better idea of their competitors and acquire an in-depth understanding of the competitive situation. Further, mergers & acquisitions, emerging market trends, the impact of COVID-19, and regional conflicts will all be considered.

In a nutshell, this report is a must-read for industry players, investors, researchers, consultants, business strategists, and all those who have any kind of stake or are planning to foray into the market in any manner.
