

BRUCE H. BELL: GROWING UP WITH A KENNEDY KILLER

Come along with Bruce H Bell as he reveals the amazing and upsetting reality of his father's behavior on a personal journey of self-discovery and contemplation.

LOS ANGELES, CALIFORNIA, UNITED STATES, August 16, 2023

/EINPresswire.com/ -- What if the assassination of President John F. Kennedy was not carried out by Lee Harvey Oswald acting alone, as the Warren Commission concluded? What if the real killer was someone with powerful connections in the government and the Mafia, someone who believed that JFK was a threat to the United States? This is the explosive statement made by Bruce H Bell in his memoir, "My Father Killed President John F. Kennedy: A Memoir."

My Father Killed President John F. Kennedy: A Memoir: Revised Edition

Through a unique perspective as a boy who was present at countless off-site assassination planning meetings, Bell reveals the inner workings of the conspiracy involving figures from the FBI, CIA, Mafia, and the Military Industrial Complex. With an introduction by renowned Kennedy assassination researcher Robert Groden, Bell's memoir offers a gripping and thought-provoking account of one of the most controversial events in American history.

In his review of the book, Groden says, "In my more than half a century of studying the issues of the assassination, I have heard many stories and have never been as impressed as I am with Bruce's. I do believe that this is a true and factual story concerning the assassination of President Kennedy, finally. In the fourteen publications that I have released since 1975, I have always dealt with the physical evidence in the case and never tried to deal with a story of the inner workings of the conspiracy".
