"Ranking #1162 on the Inc. 5000 list is more than just a ranking for Zipdev, it is a reflection of our team's tireless commitment to providing clients with the top remote tech talent from Latin America," says Michael Lenny, Co-founder and CEO of Zipdev.

The Inc. 5000 class of 2023 represents companies that have driven rapid revenue growth while navigating inflationary pressure, the rising costs of capital, and seemingly intractable hiring challenges. Among this year's top 500 companies, the average median three-year revenue growth rate ticked up to an astonishing 2,238 percent. In all, this year's Inc. 5000 companies have added 1,187,266 jobs to the economy over the past three years.

For complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, location, and other criteria, go to www.inc.com/inc5000. The top 500 companies are featured in the September issue of Inc. magazine, available on newsstands beginning Tuesday, August 23.

"Running a business has only gotten harder since the end of the pandemic," says Inc. Editor-in-

chief Scott Omelianuk. "To make the Inc. 5000-with the fast growth that requires is truly an accomplishment. Inc. Is thrilled to honor the companies that are building our future."

Inc. 5000 Methodology

Companies on the 2023 Inc. 5000 are ranked according to percentage revenue growth from 2019 to 2022. To qualify, companies must have been founded and generating revenue by March 31, 2019. They must be U.S.-based, privately held, for-profit, and independent—not subsidiaries or divisions of other companies—as of December 31, 2022. (Since then, some on the list may have gone public or been acquired.) The minimum revenue required for 2019 is \$100,000; the minimum for 2022 is \$2 million. As always, Inc. reserves the right to decline applicants for subjective reasons. Growth rates used to determine company rankings were calculated to four decimal places.
