For more than 13 years, Art of Estates has been a trusted name in the Personal Property, Antique and Art Appraisal field in the Midwest. Since its establishment in 2010, the company has consistently delivered exceptional unbiased appraisal services and has built long-term relationships with clients. To qualify for the award, Art of Estates demonstrated its adherence to the BBB's Eight Standards of Trust, which include building trust, advertising honestly, telling the truth, being transparent, honoring promises, being responsive, safeguarding privacy, and embodying integrity.

Expressing gratitude for the award, Brady L. Dreasher, President of Art of Estates, said, "Art of Estates' purpose is to instill trust with the public by not buying, selling, or taking personal property into our possession when being hired as an appraiser. We also take the time to explain

the court-tested and approved methodologies, so our clients have transparency and understand the appraisals' conclusions. In taking these steps we build lifelong relationships with our clients and families. The foundation of every single one of those relationships is trust. So, a huge "thank you" to the entire team at Art of Estates. We could not have won this award without your dedication to professionalism, honesty, and ethics!"
