

# Pete Ladis Joins HR Logics as Chief Technology Officer

*Technology Veteran Joins the Forefront of HR Compliance Innovation, Set to Amplify HR Logics' Technological Prowess and Growth*

BIRMINGHAM, ALABAMA, USA, August 22, 2023 /EINPresswire.com/ -- [HR Logics](#), a leading provider of HR compliance technologies and full-service compliance management services, is excited to announce the appointment of Pete Ladis as its new Chief Technology Officer (CTO). With a proven track record in leveraging technology to drive growth, Ladis is set to bolster HR Logics' commitment to providing [integrity-first](#) industry-leading human resources compliance software.

“

Leveraging both our internal industry experts and best of breed technology, I look forward to harnessing innovative solutions to further cement HR Logics' position as an industry leader.”

*Pete Ladis*

“With the addition of Pete Ladis to our leadership team, we are not just strengthening our technological capabilities, but reinforcing our commitment to being the most innovative compliance partner for our clients. In today's ever-evolving governmental compliance landscape, it's crucial for businesses to have the best technology solutions and a compliance partner they can trust,” stated Shannon Scott, CEO of HR Logics.

Ladis joins the HR Logics team from Earnnest, a digital real estate payment platform, where he served as Chief

Technology Officer. He played a pivotal role in product growth, doubling revenue over two years.

Reflecting on his new role, Ladis remarked, “I am thrilled to be joining HR Logics. Leveraging both our internal industry experts and best of breed technology, I look forward to harnessing innovative solutions to further cement HR Logics' position as an industry leader.”

## The Role Ahead:

From [Form I-9 compliance](#) to unemployment cost management, HR Logics assists employers through complex regulatory compliance for the entire employee lifecycle. As the CTO of HR Logics, Ladis will be instrumental in driving the company's technology strategy and execution. His responsibilities will span from overseeing the development and implementation of HR Logics' software

products to ensuring the technological infrastructure supports the company's expansive business objectives. He will also be pivotal in steering HR Logics' technology roadmap, fostering a culture of innovation within the technology team, and maintaining optimal technology infrastructure performance.
