

CopperSmith® Continued Growth in Down Economy

MINNEAPOLIS, MINNESOTA, USA, September 4, 2023 /EINPresswire.com/ -- Year over year growth into the down economy. The company attributes its success to its prior investments in R & D and computer-generated imagery to create a competitive advantage. The strategy has been to lead in the technology side of custom metalwork from the standpoint of manufacturing automation and customer-facing retail tools.

The company is engaging with several new manufacturing companies to increase production capacity to meet demand. The company has numerous partnerships with manufacturers in Asia, North America, and Europe. The company is primarily focused on specialty manufacturers who make product lines that are exclusive and unique to CopperSmith®. The company distributes its products directly to consumers along with it's B2B community of 15,000 interior designers and 250+ showrooms across the USA.

Our team is starting to sync and execute well. It's exciting to start seeing our past investments pay off and have so many new irons in the fire simultaneously."

Ryan Grambart, Founder & President
