The US EB-5 Visa is an immigrant pathway for foreign investors and their dependents that grants Permanent Residence (Green Card) through investment. An EB-5 Green Card is obtained by investing at least \$800,000 in a new enterprise or a development project that leads to 10 full-time jobs for U.S. workers. Green Card processing through EB-5 takes about 1-3 years on average and does not require any sponsorship. Getting an EB-5 Visa allows you and your family to permanently live, work, and study anywhere in the USA. Investors already present in the United States on F-1 or H-1B Visas can receive unrestricted work and travel permits in just 4-6 months after making an EB-5 investment.
