

# Claiming Energy Tax Credits Simplified for 2023 and 2024

*The Internal Revenue Service (IRS) has announced a comprehensive update on the energy tax credits taxpayers can claim for the fiscal years 2023 and 2024.*

TRAVERSE CITY, MI, US, August 23, 2023 /EINPresswire.com/ -- The Internal Revenue Service (IRS) has announced a comprehensive update on the energy tax credits taxpayers can claim for the fiscal years 2023 and 2024.

With these provisions, taxpayers can expect greater incentives for making energy-efficient decisions in their homes and businesses.

In line with global shifts towards sustainability, the updated tax credits aim to encourage the adoption of renewable energy solutions, energy conservation, and sustainable living practices.

Key features of the [updated energy tax credits for 2023-2024](#) are:

Extended Coverage: Tax credits now cover a broader range of energy-efficient appliances and green energy installations, including the latest in [new energy-efficient windows and doors](#), solar panels, wind, and geothermal technologies.

Higher Credit Caps: Taxpayers can enjoy higher percentage returns on their investments in

Residential Homeowner Energy Tax Credit

New replacement windows tax deduction

energy-efficient solutions, making sustainable upgrades more financially attractive.

**Commercial Benefits:** Businesses adopting energy-efficient measures are also eligible to claim energy tax credits, encouraging the corporate sector to embrace sustainability.

**Streamlined Application:** A simplified application process makes it easier for taxpayers to apply for and claim their credits. [Form 5695 is a tax form used by U.S. taxpayers](#) to claim tax credits for energy-efficient home improvements or renewable energy installations.

**Inclusive for Renters:** Renters who contribute to energy-efficient upgrades in their leased properties can now also avail of specific tax credits.

**Educational Resources:** The IRS offers resources and guidelines to assist taxpayers in understanding eligible products and services, ensuring they maximize their credit claims.

Taxpayers, homeowners, and businesses are encouraged to familiarize themselves with these updated provisions, making environmentally sound decisions that benefit both their wallets and the planet.
