

VOY Glasses Unveils Tunable Lens Insert for Lenovo VRX at AWE Asia

SAN FRANCISCO, CALIFORNIA, US, August 29, 2023 /EINPresswire.com/ -- VOY Glasses, a leading tunable lens innovator in the field of VR/AR/XR and eyewear technology, has unveiled its groundbreaking tunable lens insert for Lenovo VRX at the 2023 AWE Asia conference in Singapore from August 30 - 31. This pioneering achievement marks a significant milestone in the evolution of VR technology, promising to enhance the immersive experience for users worldwide.

The Augment World Expo (AWE) event, held from Aug 30 -31 2023, served as the perfect platform for VOY to introduce its revolutionary product. The tunable lens insert, designed exclusively for Lenovo's VRX headset, aims to address some of the most pressing challenges faced by VR enthusiasts, including clarity, comfort, convenience and cost efficiency for enterprise VR application.

Key Features of VOY's Tunable Lens Insert for Lenovo VRX:

- * **Unparalleled Clarity:** VOY's tunable lens insert uses advanced optics to provide users with unmatched clarity and sharpness in virtual environments. The adjustable lens system allows users to customize the focus between 0 to -6D or +3D to -3D by simply sliding the tuning knob for delivering lifelike visuals.
- * **Enhanced Comfort:** With a focus on user comfort, VOY's tunable lens insert incorporates ergonomic design principles. It's lightweight and easy to install, ensuring that users can enjoy extended VR sessions without discomfort.
- * **Convenience and Cost Efficiency:** With just one VOY tunable lens insert, enterprise IT can streamline installation and cater to the diverse vision correction requirements of multiple users. By eliminating the need to acquire individual VR prescription lenses for each person, enterprises can make substantial upfront cost savings, enabling a focus on delivering immersive VR applications.
- * **Adaptability:** One of the standout features of the VOY lens insert is its tunable capability. Users can fine-tune the lens to their unique prescription, eliminating the need for wearing glasses inside the headset. This innovation is a game-changer for VR enthusiasts who rely on corrective lenses.
- * **Compatibility:** The lens insert is exclusively designed for Lenovo's VRX headset, ensuring a seamless fit and exceptional performance. VOY aims to expand compatibility with other VR headsets in the near future.
- * **Immersive Experience:** By offering an immersive, crystal-clear VR experience, VOY's tunable vr

lens aims to revolutionize how users engage with virtual worlds, from gaming to professional applications.

CEO of VOY Glasses, George Zhao, expressed enthusiasm about the company's latest innovation, saying, "At VOY Glasses, we're committed to pushing the boundaries of optical technology to provide users with the most immersive and comfortable VR/AR/XR experiences. Our tunable lens insert for Lenovo VRX is a testament to our dedication to innovation, and we believe it will change the way people perceive and interact with virtual reality."

The VOY tunable lens insert for Lenovo VRX is set to disrupt the VR market by addressing the long-standing challenges faced by users. It represents a significant step forward in making VR more accessible and enjoyable for everyone.
