

Alta Data Technologies Recognized as a Top Supplier by Aerospace & Defense Review for a Fourth Straight Year

Growth Through Innovation and Quality of MIL-STD-1553 and ARINC Products

RIO RANCHO, NEW MEXICO, UNITED STATES, August 29, 2023

/EINPresswire.com/ -- [Alta](#) Data Technologies, LLC (Alta) is excited to announce that Aerospace & Defense [Review](#) selected Alta as a top ten aerospace provider for the fourth straight year. This prestigious award recognizes Alta's growth, innovation, and quality in providing industry leading MIL-STD-[1553](#) and ARINC commercial off the shelf (COTS) products. The Review demonstrates why Alta has become one of the largest, most trusted 1553 and ARINC providers, and highlights a recent product selection by Lockheed Martin Corporation for one of the nation's leading aircraft programs.

"We have been quite impressed by Alta's, expertise in providing efficient and innovative aviation solutions," said Jonathan Allred, Managing Editor of Aerospace & Defense Review magazine." We congratulate Alta on this prestigious recognition and look forward to seeing their impressive growth streak continue."

"This recognition is such a privilege and we thank Aerospace & Defense Review for the honor. This award demonstrates our entire teams' commitment to providing the very best products and services in the 1553 and ARINC markets. One aspect of this award was the fact that we have not missed a contract shipment date in over 10 years! Even through the COVID supply chain difficulties. This required a tremendous effort from our manufacturing team, and we are grateful for the Review's recognition. By offering the only 3rd generation, packet off-loading

protocol engines, interface boards, USB, Thunderbolt, and Ethernet converters (ENET), along with our leading manufacturing practices, we've been able to grow and keep a personal support promise for all customers – backed-up with an industry leading 5-year warranty," states Richard Schuh, CEO and co-founder of Alta.

About Alta Data Technologies

Alta is a rapidly growing, private company that provides industry leading COTS avionics interface products. Alta's products are offered in high-density channel counts and Ethernet configurations, IRIG Time Code Decoder, Triggers, Discretes and the advanced AltaAPI and SAE AS4111 5.2 AltaRTVal™ software packages.

We have been quite impressed by Alta's, expertise in providing efficient and innovative aviation solutions."
