**Married Filing Jointly:** For the tax years 2023 and 2024, the married standard deduction for those filing jointly is set at \$27,700.

This means married couples can deduct this amount from their taxable income before calculating their tax liability.

**Increased Deduction:** The married standard deduction is typically higher than the individual standard deduction, providing married couples with a higher threshold for tax-free income.

**Alternative Filing Status:** Married couples have the option to choose the "Married Filing Separately" status. However, this may result in a lower standard deduction than the "Married Filing Jointly" status.
