I've always had a love for writing but the inspiration behind this book specifically stems from fantasy games my siblings and I would play as children. I derive a lot of inspiration from my love of history as well. So many great stories have been experienced and recorded with many different people having performed great acts of bravery or bringing their creative and innovative ideas to life and I want to tell those stories, but differently, with my own twist to them and my own characters.

I genuinely hope that you enjoy this book and that, if you do, you continue to follow my development both in my fantasy realm of Eldrin, but also as a writer. I am constantly practicing my craft and appreciate your feedback and encouragement.
