

SKIN Clinics Expands to Become Canada's Largest Dermatologist-Owned Group of Medical and Cosmetic Dermatology Clinics

From Brandon to Regina, Calgary, Winnipeg, and Beyond, SKIN Clinics is Revolutionizing Modern Dermatology with Passion, Precision, and Purpose

WINNIPEG, MANITOBA, CANADA, August 29, 2023 /EINPresswire.com/ -- SKIN Clinics opened its first location a decade ago, and in that time, there have been incredible advances in the tools and technology utilized to enhance beauty and promote positive aging and overall wellness.

Even with those advances, it is a rarity to find clinics that combine unparalleled expertise, and patient care with cutting-edge technology and treatments within the world of dermatology. SKIN Clinics, Canada's premier provider of cosmetic and medical dermatology, is at the forefront of those advances and is proud to announce with its recent expansion it has become the nation's largest dermatologist-owned chain of clinics, bringing top-tier care to Canadians across the West.

Founded in 2014 in Brandon, Manitoba, SKIN Clinics quickly became a leading authority for their approach to Cosmetic and Medical Dermatology in Canada. Since then, SKIN Clinics has expanded to a total of five locations, including Steinbach, [Calgary](#), and [Regina](#), and in July, opened its fifth in the trendy South Osborne neighbourhood of [Winnipeg](#).

The success of SKIN Clinics can be attributed to many factors, not least of which is the fact that their brand is known for its high design. The elevated aesthetic gives clients confidence that they're putting their faces in good hands. Their approach to cosmetic dermatology is similarly understated; clients have come to expect the natural, uncontrived elegance that the brand has become known for.

The approachable luxury that has become synonymous with SKIN Clinics has created devotees across the country, and the approach that has led to their success is the long-term customized treatment plans with an aim to produce natural, subtle results.

Offering skin consultations, Botox, Cool Sculpting, laser hair removal, fillers, ultherapy, laser face tightening, rosacea treatment, and everything in between — SKIN Clinics has rapidly become an industry leader in pioneering innovative treatments with quality care and unmatched expertise.

SKIN Clinics is proud to hold its place as the largest dermatologist-owned group in the country, upholding Medical Director Dr. Jason Sneath's philosophy to combine expert service with the most advanced technology and products. Whether it be medical or cosmetic dermatology, Canadians across Western Canada can rely on SKIN Clinics to create customized, natural treatment plans in a world-class practice with the nation's leading skin experts.

Through proof of concept, dedication to innovation, and unwavering commitment to providing industry-leading medical and cosmetic dermatology, SKIN Clinic's purpose-driven vision has come to fruition as they continue to expand Canada's largest dermatologist-owned clinic.
