The restaurant point of sale (POS) terminal are used to reduce turnaround time by accepting orders at the table and printing KOTs instantly. Restaurants deploy the point of sale systems to operate with improved efficiency, reduce billing time, monitor the order completion time, and avoid order errors during peak hours. They involve payroll management, inventory control, recording of sales figures, and billing to ensure the business functions. POS terminal systems are integrated with online ordering, E-wallets, table reservations, loyalty programs, and many others.
